

DOUBLE DEGREE

between the University Federico II of Naples (UNINA) and the EPOKA University of Tirana

How to access the programme

Requirements for aspiring candidates to follow this study programme aimed at the award of a double degree:

- to be regularly enrolled in the master's degree Programme in PTUPA (Territorial Urban Landscape and Environmental Planning - degree) for UNINA (University Federico II of Naples) students
- to be regularly enrolled in the 2-year Master of Science in Architecture (1st year) course at EPOKA or in the 5-year Integrated Second Cycle study programme in Architecture (4th year) for EPOKA University students. Students of the 5-year Integrated Second Cycle study programme in Architecture have to pass all the exams of third year to apply the procedure.

Definition of programme and university credits

The training course aimed at obtaining the double degree is divided into two academic years (4 semesters, 120 ECTS).

Students enrolled in this programme must validate two semesters in their home university and the other two in the partner university. During their stay at the partner University, mobility students attend the same courses and take the same exams as the students enrolled at the partner University.

At the end of the international course, students who have passed the examinations of both the Albanian and the Italian parts of their training cycle simultaneously obtain title of Master of Science in Architecture at EPOKA UNIVERSITY and the master's degree in Territorial Urban Landscape and Environmental Planning (PTUPA) at UNINA.

EPOKA UNIVERSITY students attend the first and second semesters at UNINA and the third and fourth semesters at their home university.

University fees

Students are enrolled in the home institution and in the host institution and they are exempt from paying university fees and any other contribution to the latter.
